EDUCATION

Indian Institute of Technology (ISM), Dhanbad

Dhanbad, Jharkhand, India

Bachelor of Technology in Electronics and Communication Engineering

July 2024 – May 2028 (Expected)

- **Relevant Coursework:** Introduction to C Programming, Introduction to Algorithms, Object-Oriented Programming using Java, Computer Networks.

PROJECTS

Note Bridge | *React.js, Node.js, Express.js, MongoDB, Firebase, Socket.IO, Gemini API*

[Live](#) | [GitHub](#)

- Built a full-stack note-sharing platform with JWT authentication, folder-based organization, file uploads, and controlled note sharing using the MERN stack
- Integrated the Google Gemini API to generate AI-powered summaries and relevant tags for uploaded notes, helping users quickly understand and organize their content.
- Enabled real-time social interactions including likes, comments, shares, and follow requests using Socket.IO, with Firebase Storage for secure file handling

HectoClash | *React.js, Redux, Node.js, Express.js, Socket.IO, MongoDB*

[Live](#) | [GitHub](#)

- Developed a real-time multiplayer math duel game with live matchmaking, private rooms, and practice mode using Socket.IO and the MERN stack
- Added JWT-based authentication, dynamic leaderboards, and detailed match history with performance tracking and star ratings
- Used Redux Toolkit for centralized state management and designed a responsive interface using Bootstrap 5

NGO Connect | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Cloudinary*

[Live](#) | [GitHub](#)

- Created a MERN platform with JWT authentication and role-based access control for NGOs and volunteers
- Implemented NGO profiles, event management, and volunteer dashboards to streamline collaboration and coordination
- Integrated Cloudinary for image uploads and utilized React Context API for efficient state management in a responsive Tailwind CSS interface
